In the Claims:

Please enter the following new claims 35 and 36:

- --35. An interconnect comprising:
- (a) one or more metal lines formed from a first metal layer, said metal lines having gaps therebetween;
- (b) low-k material filling the gaps between the metal lines and having a height and one or more vertical portions;
- (c) a protective layer formed directly over the metal lines and the low-k material, wherein the protective layer covers at least one vertical portion of the low-k material, and wherein the protective layer includes an oxide;
- (d) a dielectric layer formed over the protective layer, wherein the dielectric layer has a different composition than the low-k material and the protective layer;
 - (e) one or more vias etched in the dielectric layer;
 - (f) a metal for filling the vias;
 - (g) a second metal layer formed over the dielectric layer; and
- (h) one or more openings in the protective layer for allowing the metal vias to contact the first metal lines.--
 - --36. The interconnect of claim 35, wherein the oxide includes silicon dioxide.--
